CAREER OBJECTIVE

Seeking a MERN Stack Developer role where I can leverage my expertise in frontend & backend development, and problemsolving. Aiming to design optimized databases and build efficient, scalable systems. Focused on creating responsive, user-centric applications that enhance user experience.

TECHNICAL SKILLS

- Programming Languages: Python (basic concepts&visualization libraries),C(basic level)
- Frontend Technologies:HTML5,CSS3,JavaScriptES6+
- Frameworks & Libraries: React.js, Bootstrap
- Backend Technologies:Node.js
- Database:MySQL,MongoDb
- Version Control: Git, GitHub
- Build Tools: Babel, npm
- API Integration: RESTful APIs
- Tools: Figma (for UI/UX collaboration), VS Code, MySQL Workbench

INTERNSHIP EXPERIENCE

Accent Techno Soft, Coimbatore (July – Aug 2025)

- Worked with Python and data analytics libraries (Pandas, NumPy, Matplotlib, Seaborn).
- Performed data cleaning, preprocessing, exploratory data analysis (EDA), and visualization on real-time datasets.

PROJECTS

Inventory Management System

- Developed for e-commerce platforms to monitor stock.
- Built using React, HTML, CSS, JavaScript, and MySQL Workbench.

Sleep Health Analysis

- This beginner-friendly project analyses sleep health using Python in **Jupyter Notebook with Pandas, Matplotlib, and Seaborn**. It uses real-world data to perform basic statistical analysis and visualize case trends across countries.

CERTIFICATIONS

- Oracle SQL Certificate – HackerRank (Feb 2026)
- Web Application Development using React Js – Microsoft (March 2024)
- Winner-Project presentation (NERDINA): Webpage Creation for Restaurant's (February 2023)

EDUCATION

PPG Institute of Technology, Coimbatore

- B.Tech. Information Technology | CGPA: 8.5 (2022–2026)

Unique Public School, Ooty

- Higher Secondary Education | 76% (2022) **Mahatma Gandhi**

Matric. School, Ooty

- SSLC| 98% (2020)
